R. R. DISTRICT  
COMMITTEE.

(Continued from First Page.)

Commissioner's District at 2 o'clock p. m. on Saturday, Aug. 12, 1911; provided, however, in counties having more than one legislative district conventions shall be held in each legislative district at such place as may be designated by the Democratic chairman of the respective legislative districts. The representation of each county or legislative district in said district convention shall be one delegate vote for each two hundred or fraction over one hundred Democratic votes cast in said county or legislative district in the last general election held in the State of Kentucky for the election of presidential electors.

Resolved, (3) That any Democrat desiring to become a candidate for the Democratic nomination for said Railroad Commissioner in said First Commissioner's District subject to the action of the Democratic party, shall do so by addressing letters to the Chairman of the Democratic Executive Committee, A. G. Rhea, Russellville, Ky., and to the various executive committeemen, to wit: Harry Lazarus, Bowling Green, Ky.; Henry Lawrence, Cadiz, Ky.; Dr. Joe Goodson, Dixon, Ky.; Mr. Sam T. Spalding, Lebanon, Ky., and Mr. James R. Tuggle, Barbourville, Ky., prior to June 3rd, 1911. Said letter shall state the age, residence and postoffice address of the person desiring to become a candidate, and shall further state that he thereby declares himself a candidate for the Democratic nomination for Railroad Commissioner in the First Railroad Commissioner's District of Kentucky, subject to the action of the Democratic party under this call, and that he possesses the statutory qualifications for said office.

Resolved, (4) That said Executive Committee shall this day adjourn to meet in Bowling Green, Ky., at one o'clock p. m. on June 9, 1911, in the parlors of the Mansard Hotel; and if, on the assembling of said committee on said date, there is but one candidate offering to submit his claims before said convention as herein provided, then, and in that event, it shall be the duty of said committee to call off said county and legislative district conventions provided for herein, and it shall be the duty of said committee to declare said candidate the nominee of the Democratic party for Railroad Commissioner in the First Railroad Commissioner's District of Kentucky. And it shall further be the duty of said committee to then and there resolve itself into a Democratic district convention in and for said First Railroad Commissioner's District, electing its chairman and secretary and having the powers, duties and privileges of a Democratic district convention held in and for said Railroad Commissioner's District, except that it shall be the duty of said committee then resolved into said convention to then and there declare and nominate a candidate of the Democratic party for Railroad Commissioner in the First Railroad Commissioner's District of Kentucky to be voted for at the general election, held in November, 1911.

Resolved, (5) It shall be the duty of the chairman of said district convention provided for herein, and the secretary of said district convention, as provided for herein, to certify the name of said candidate to the proper officers as provided by law as the Democratic nominee for Railroad Commissioner in the First Railroad Commissioner's District of Kentucky to be voted for at the next general election held in Kentucky on November 7th, 1911, and when so certified, said candidate shall be entitled to have his name printed in the Democratic column under the Democratic device, to-wit, a game cock in the act of crowing, as the Democratic nominee for Railroad Commissioner to be voted for at said regular election in November, 1911.

Resolved, (6) In the event it shall be necessary to hold said county and legislative district conventions, as herein provided for, it shall be the duty of the Democratic County Chairmen, and the Democratic Legislative district chairmen, to give reasonable notice of not less than ten days of the respective county and legislative district mass convention to be held on August 12, 1911, as herein provided.

## U. D. C.

The Christian Church Chapter, U. D. C. will meet this afternoon at 2:30 o'clock, at the Parish House. A full attendance is urged.

## The Famous Rayo

## Is the Lamp of Real Beauty

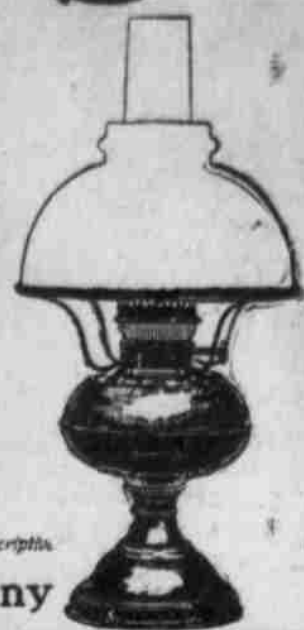

because it gives the best light of all lamps. The Rayo gives a white, soft, mellow, diffused light—easy on the eye because it cannot flicker. You can use your eyes as long as you wish under the Rayo light without strain.

The Rayo Lamp is low-priced, and even though you pay \$5, \$10 or \$20 for other lamps, you may get more expensive decorations but you cannot get a better light than the low-priced Rayo gives. A strong, durable shade-holder holds the shade on firm and true. This season's new burner adds strength and appearance.

Once a Rayo User, Always One.

Dealers Everywhere. If not at yours, write for description circular to the nearest agency of the

Standard Oil Company

## GOOD TIMES

## JUST AHEAD

Warm Weather Has Started

The Big Tobacco Crop  
To Moving.

THE MONEY WILL FLOW

When 30,000,000 Pounds of

The Weed is Delivered—  
Stripping Difficulties.

The long expected boom in the local tobacco market may now be expected.

The warm weather has started the crop to moving and there are unmistakable signs of activity and during the next sixty days we may look for the delivery in Hopkinsville of perhaps 30,000,000 lbs. which will be put in circulation not less than \$2,000,000. Much of the tobacco has already been sold to the various factories and rehandling houses, and the rest will be sold on the loose floors, to buyers or prized and sold in hogsheads.

Hopkinsville, by maintaining an uninterrupted tobacco market has almost doubled its former territory and the city is now the acknowledged leading market of the Black Patch.

All of the rehandling houses are preparing to start up next week, and from now on heavy deliveries may be expected.

The loose floors are now holding

daily sales and receipts are rapidly increasing. Prices are ruling strong, ranging from \$4 to \$12.

There are no indications of lower prices. On the other hand buyers are eager for the crop to move. The farmers are now busy stripping tobacco and many of them are having much trouble getting hands, as the negroes continue to leave the farms in large numbers and flock to the cities.

Hopkinsville is doing all it can to

discourage this by dispensing public charity only after the most rigid investigation and by vigorously enforcing the vagrancy laws. A negro man applied for charity a few days ago who refused to remain on a farm last fall at \$40 a month for himself and two boys and a house furnished. His application was of course refused. These conditions are causing some crops to be brought to town and stripped on contracts.

STORE WRECKED

In Pennsylvania By a Gas

Explosion.

Connellsville, Pa., Jan. 13.—McCrory's five and ten cent store on North Pittsburg and Apple streets was wrecked by a gas explosion yesterday, and the flames which followed communicated to adjoining structures.

Three young women clerks are

missing, two clerks and the assistant manager and a carpenter are in the hospital, dangerously burned and injured, while a dozen or more employees are at their homes suffering from injuries, more or less serious. By noon the flames were under control and the property loss has been placed at \$75,000.

The leaf-turning and swearing off season will soon be open.

## HOT AFTER PEARY

Admits He Has No Charts or  
Maps and Pole is Still  
Lost.

Capt. Robert E. Peary, testifying before the House Committee on Naval Affairs, admitted that the North Pole is as much lost as it ever was, and that all future expeditions in search of it must be independent of his own work. He said he "ginned" he could make a chart of his course.

## DAINTY CO-EDS

Will Roll Up Their Sleeves  
and Work Over Washtubs.

Columbia, Mo., Jan. 13.—Beginning February 1, every young woman in the home economies department of the University of Missouri who takes a course in testing fabrics must roll up her sleeves and work over a washtub.

Every student will have a locker in the laboratory, which will contain a tub, washboard, soap, blueing and chemicals. It is the aim of the university to teach the effect of the starch, blueing and other chemicals on clothing.

Later the laboratory is to be equipped with an electric washing machine. It is expected to enable the co-eds to determine which is cheaper, laundry work done by hand or work done by electricity.

## Conductor Touched.

A diamond pin worth over \$1,000 was stolen from Kirk Harris on a southbound freight train between Clarksville and Paris Tuesday. Mr. Harris is a conductor on the Memphis line of the Louisville & Nashville Railroad and was in charge of the train when the robbery occurred. He had taken off his street clothing and donned another suit for the run, leaving the pin in his necktie. The tie and suit were hung in the locker in the caboose and when the train arrived at Paris the pin was missing.

## Oldest Citizen.

Mr. E. L. Foulks, the veteran coal dealer and Hopkinsville's oldest business man, celebrated his 88th birthday Monday. He is still hale and vigorous and is in his office every day.

## "Adventure" For January.

The Launching of this new magazine has called forth true stories of adventure from sources which have hitherto failed to find exactly the right medium. In their third issue Captain George B. Boynton, the most daring adventurer and soldier of fortune of the past century, breaks a silence of fifty years to write himself the story of his amazing career.

No man living has had more hairbreadth escapes, has mingled in more wars, has more consistently and persistently sought out adventure all his life. Blockade-runner, filibuster, revolutionist, sea-rover, counselor of South American dictators, supplying arms to a Spanish pretender, ranging the China seas for glory and profit, romancing with a pirate queen, friend of warring republics, soldier and sailor of fortune the world over this is George B. Boynton, Master Adventurer.

Hudson Maxim, the famous inventor of high explosives, tells in this number how he lost his left arm, and contributes many stories of similar accidents full of the grim humor of a man accustomed to trifle with death.
